WORK EXPERIENCE

Frontend developer

May. 2023 – July 2023

InsureTech Financial Services

- Built an insurance website using Odoo an open source website builder.
- Showcased various insurance services, providing detailed policy information, coverage options, and contact details.
- Designed a user-friendly and responsive interface for seamless browsing.

Core Member of GDSC

July. 2022 – till date

Pillai HOC College of Engineering and Technology

I am a Core Team Member for Graphic Designer in the Google Developer Student Club PHCET, where I contribute my skills to create visually appealing designs. Additionally, as a GDSC member, I organize coding events to foster a collaborative and engaging learning environment for fellow students.

The Food Bridge

Feb 2023 – April 2023

Google Solution Challenge

- A Google DSC Solution Challenge 2023 Submission
- The Food Bridge is a website that utilizes Firebase to combat food waste in catering services, hotels, and marriages.
- Its main goals include donating surplus food to those in need, converting stale food into farming manure, and involving youth volunteers in the process.

Project Floramis

March 2023 – April 2023

Github Octernship

- Developed an isometric Unity mobile game scene with a grid-based garden of plants, allowing players to strategically manage their garden layout.
- Implemented touch controls for intuitive zooming and panning in the game.
- Integrated REST API-driven popups for seamless plant addition and detailed plant information in the Unity mobile game scene..

EDUCATION

Bachelor of Technology in Computer Science

2021 – 2025 (Estimated)

Pillai HOC College of Engineering and Technology

Higher Secondary

2019 – May 2021

KLE Society of Science and Commerce College
